R0.17

We specialize in the send of bulk SMS's and MMS's combined with Click Through options on Mobi Sites and the use of USSD, ISMS's and to the lower LSM the Please call me option. We also pioneered the Short Code market with great responses through various channels of communications. We have tried and tested the Bulk Email Market and have great success rates depending the age and Opt-In of the database

OUR SERVICES INCLUDES

BULK SMS

Bulk SMS's are used to communicate with clients through our web-portal. This allows you to send out an instant SMS to thousands of clients in a matter of seconds. Our systems are FAST, SIMPLE & RELIABLE and QUICK with response time with reply SMS's received from clients
