

About

VDT Attorneys Inc. was founded in 1932, and has, over the years, established itself as a legal force to be reckoned with.

We offer tailor-made, effective solutions to solve any legal problem in a cost-effective manner. We strive to render a professional service at all times and specialise in diversification to suit every legal need.

We also act as a team of experts in partnership with our clients, focusing on their unique needs to implement innovative solutions within the framework of their financial planning, exclusively for the promotion of their interests.

We are renowned for our correspondent practices, with the firm accepting instructions from correspondent attorneys country-wide. These correspondent relationships are fostered and supported through excellent support services, a direct line of communication with several government offices, as well as expertise and knowledge in all fields of property law and conveyancing.

We have always employed people on the basis of competence and skill, regardless of sex, culture or race. Over the years, we have identified keen-minded and technically proficient people from previously disadvantaged communities and encouraged them to gain relevant work experience and academic education through career planning, appropriate training courses and education bursary schemes.
