

# CARACAL SOFTWARE SOLUTIONS PRODUCT SOLUTIONS PROSPECTUS

## EFFICIENCY SOLUTIONS SPECIALISTS

Caracal Software Solutions offers a comprehensive business productivity suite that enables all businesses to:

- ✓ Digitise and automate operations in order to optimize efficiency
- ✓ Migrate to cloud-based solutions

The comprehensive business productivity suite consists of four cloud based software systems that will optimise efficiency in any business:

- Mobile Workforce Solutions by MobiWork
- Voice over Internet communication systems (VOIP PBX) by 3CX
- Electronic Bill Presentment and Payment (EBPP) by ATP
- Enterprise Resource Planning (ERP) by Acumatica

We ALSO specializes in solution-based internet connectivity, providing you with the most suitable, fastest and most reliable fibre, LTE, DSL, Microwave or Satellite solution for your business. With connectivity speeds from 2Mbps up to 1000Mbps, and 99% uptime, we can cater to all needs.

## THE PACKAGED SUITE OF SOLUTIONS

### Is Flexible and Secure

- Scalability – cloud infrastructure can scale quickly to support a growing business's needs.
- Flexible Licensing – pay-per-use license model.
- Security – paramount security measures including data encryption, access control & permissions, security vulnerability management and monitoring.

### Improves Efficiency and Visibility

- Comprehensive workforce management
- Accessibility – cloud based
- Increase productivity – seamless integration between cloud and mobile devices (smartphones & tablets, both Android & IOS).
- Digitisation - reduce manual capturing of information.
- Visibility - increased visibility of total customer interaction with dashboards and reporting.

### Offers Strategic Business Benefits

- Lower cost of ownership – reduce and eliminate capital investment in technology platforms, no need to ever buy hardware or software again.
- Faster Time-to-Value – with seamless operations, rapid and swift operational onboarding through templatised configuration and agile onboarding services.
- Reduced operational costs.

# IN PURSUIT OF OPTIMAL EFFICIENCY

MobiWork is a cloud-based mobile workforce solution that dramatically **increases productivity**, reduces costs and provides real-time information on every aspect of your business' operations.

**Clear, reliable and cost-effective voice calls are essential for business.** A hosted PBX is the latest and modern solution to business communications needs. There is no on-site equipment as the back-end is cloud based, which means seamless upgrades and a 100% fail-over is in place. Best of all, because data is used to make calls it has a significant cost savings.

Acumatica is the fastest-growing provider of Cloud ERP software. Built on the world's best cloud and mobile technology, the adaptable and integrated applications deliver modern solutions for ERP and CRM.

Acumatica's unique pricing model offers flexible licensing and deployment options and is easily expanded for a growing organization.

ATP offers various **Payment solutions**

- Electronic Bill Presentment & Payment (EBPP)
- Credit and Debit card payment gateway for ZAR, USD & Euro
- Mobile Payments
- POS Payment solutions
- Smartphone applications
