GROUP PROFILE

1. INTRODUCTION

Pinnacle Occupational Safety and Health Services provide a **TURN-KEY SOLUTION** to satisfy customers in terms of Occupational Health and Safety and also to ensure the following:

- Immediate accessibility to OHS expertise,
- Peace of mind,
- Compliance to Legislation,
- Contribute to “*preferred service provider*” status,
- Contribute to a healthy workforce, employee stability and improved labour relations,
- Preferred insurance risk categorisation and savings due to risk reduction,
- Extensive savings in terms of time, cost and effort due to timeous introduction, rectification and maintenance of OHS issues,
- Establish a preferred legal liability and accountability position,
- Contribute to the preservation of sound management principles,
- Improved staff competency, knowledge and understanding of a safe and healthy work environment.

2. ABOUT US

Pinnacle Occupational Safety and Health Services was founded in May 2009 as an organisation that is able to deliver quality Occupational Safety and Health Services to identified sectors in the African market. The company developed to meet increased client and industry requirements and three additional companies, Frontier SHEQ Consulting Services (Pty) Ltd, Crest Occupational Safety and Health Construction Support (Pty) Ltd and Primary SHEQ Services (Pty) Ltd, were founded, each with its own specific objectives and target markets. The Pinnacle OSH Group of Companies, inclusive of a wide network of professional and associated resources, provides a turn-key solution to any OHS challenge, both inside and outside South Africa.

3. VISION

The Pinnacle OSH Group consists of the leading companies in the field of SHEQ service provision. Our teams are dedicated to assure that our clients achieve their goals by providing high quality SHEQ consultancy and operational services in selected Regional, National and International Markets, based on continual improvement, integrity and Christian values.

4. MISSION

We as leaders in our profession strive to deliver honest and reliable services in selected target markets based on ethical principles. We deliver a comprehensive SHEQ service solution on a consultancy and operational basis including but not limited to;

- Contractor management in both construction and mining environments.
- SHEQ Legal Compliancy system implementation and maintenance.
- Implementation and maintenance formal management systems (OHSAS 18001; ISO 9001; ISO 14001)
- Specialised OHS services.
- Needs based OHS training.

5. CAPABILITY STATEMENT

Pinnacle OSH Services has direct access to resources with more than 175 years of experience in the field of SHEQ in various industries. Members and resources are professionally registered with Institute of Safety Management and The South African Council for Project and Construction Management Professions (SACPCMP)

Members of the Pinnacle Group have held senior and top management positions in NOSA, DEKRA,

Norisko, SAACOSH, ComPrac Holdings, as well as top SHEQ Management positions in the gold mining, building as well as civil construction industries.

Members of the Pinnacle Group have been involved in the SHEQ management of construction projects throughout South Africa amongst others, Sandton City, Eastgate, Soccer City, The Zone @ Rosebank, 15 Alice Lane Towers, ABSA Building Pretoria, ABSA Branch Refits, Heineken Brewery, Inanda Greens Office Park, Hyde Park Shopping Centre, Kievits Kroon, Kumba (Sishen and Thabazimbi), Northam Platinum Booyensdal, Gold Fields Limited Growth Project, President Hyper Vaal, ESKOM Medupi, ESKOM Kusile

and Central Rand Gold, Involvement in projects covered all provinces in South Africa and Mozambique, Namibia and Zambia.

Resources associated with the Pinnacle Group have extensive experience in contractor management in the construction and mining environments.

Members have managed projects to achieve OHSAS 18001:2007, ISO 9001:2008 and ISO 14001:2004 certification in the mining, training and civil construction environments and have extensive experience in the maintenance of ISO and OHSAS systems.

Mining experience entails all major aspects of deep level mining including shaft sinking, station level development, trackless mining, hi-speed development, conventional stopping, and paddock mining as well as underground and surface workshops.

In the commercial, facilities management, retail and manufacturing sectors, experience covers amongst others, aspects such as OHS Management System design, implementation, auditing and maintenance, risk assessments, emergency evacuations, incident investigations and inspections.

Clients, amongst others include Sandton City Centre Management, President Hyper Group, Grand Central Airport, Tiber Properties, Tega Industries, MILKOR and NJR Steel.

One of the founding members of Pinnacle OHS Services was the Chairman of the Standards Generating Body (SGB) for Occupational Health and Safety, that was responsible for the National Qualifications in OHS currently registered with SAQA and serves as the President of the Institute of Safety Management.

He is still actively involved in the activities of the Mining Qualifications Authority (MQA), the South African Qualifications Authority (SAQA), the Quality Council for Trades and Occupations (QCTO), and the SACPCMP.

Training course design and accreditation, unit standard course development, SETA accreditation and course presentation at various levels in Occupational Health and Safety form part of the extensive experience in this field. Associated resources are registered assessors and moderators with different SETAs.

The Pinnacle Group is a B-BBEE Level 2 contributor and has a 125% B-BBEE procurement recognition level rating. CV's of the resources to be used for specific services will be provided on request.

PINNACLE SAFETY & HEALTH SERVICES (PTY) LTD

FRONTIER SHEQ CONSULTING (PTY) LTD

Frontier SHEQ Consulting provides an OHS management service to companies in all industrial sectors, including manufacturing and facility management and also acts as the OHS Agent for clients on construction projects.

Functions include the formulation of OHS policies, hazard identification and risk assessment, legal compliance audits and inspections, OHS related surveys, emergency management, education in the maintenance of OHS management systems, and incident investigations.

Frontier SHEQ consulting is also involved in the development and implementation of OHSAS 18001 Management Systems.

PRIMARY SHEQ SERVICES

Primary SHEQ Services provides OHS Services to Principle Contractors (Mining, Building and Civil Construction Projects).

Functions include the development of safety plans, applicable risk assessments and legal appointments to contract requirements, the establishment of and the implementation of safety files as required by Occupational

Health and Safety legislation and in accordance with contractors packs as required by the mining industry, OHS Legal compliance audits and reports, maintenance of OHS systems on site, incident investigations and compilation of specific fall protection plans to specified requirements.

CREST OCCUPATIONAL SAFETY AND HEALTH CONSTRUCTION SUPPORT (PTY) LTD

Crest Occupational Safety and Health Construction Support provide a comprehensive OHS service to sub-contractors in the construction industry.

The service includes compiling OHS site files based on the requirements of legislation and client OHS specifications, developing occupational health and safety plans, environmental management plans, fall protection plans, revision and

compilation of site specific risk assessments, incident investigations, legal compliance audits, physical site inspections and basic site specific training as required on construction sites.

OHS TRAINING

Pinnacle is currently able to facilitate the presentation of a wide range of SETA accredited, as well as non-accredited training. We currently make use of training service providers with verified accreditation with the relevant SETA. Pinnacle has initiated the process to get its own accreditation with the HWSETA. The training service also includes *inter alia*, assisting training service providers with SETA accreditation, developing training material, developing and presenting needs based training for companies including supervisor OHS training, legal liability training for amongst others tenants and OHSA Sec. 16(2) appointees.

Pinnacle Occupational Safety and Health Services presented the 2010 GMBA Occupational Health and Safety Cadet Training based on the National Certificate in Construction Health and Safety, NQF Level Three.

A training portfolio is available on request. We are also capable to advise on all OHS training related aspects.

Legal Services

The Pinnacle Group has access to a specialist OHS Legal consulting firm with extensive experience in providing OHS legal advice, training and litigation. We trust that we have the skills and the experience to deliver a quality service to enhance your company's SHEQ record!
