

Company profile for ESKOL cc

ESKOL cc was established in August 1998 as a small business in the construction industry that focuses on customers' needs satisfaction by delivering outstanding quality services.

During the years ESKOL cc was involved in several projects for individual and business owners. We focused on maintenance, alterations and upgrading of residential houses which included kitchens, bathrooms, outdoor living areas, etc. We perform critical residential inspections and repairs on foundations, cracks in walls, roof leaks and waterproofing of various areas.

Manufacturing of steel, aluminium and stainless-steel products on customers' request.

ESKOL cc also engages with customers who need support in building, installation and maintenance of industrial solar water systems above 20000L.

Our goal is to achieve good workmanship with customer satisfaction.
